CALVERT NORTH CURRENT WORKS

EKFB HS2 Enquiries Update

Since our last meeting we received...

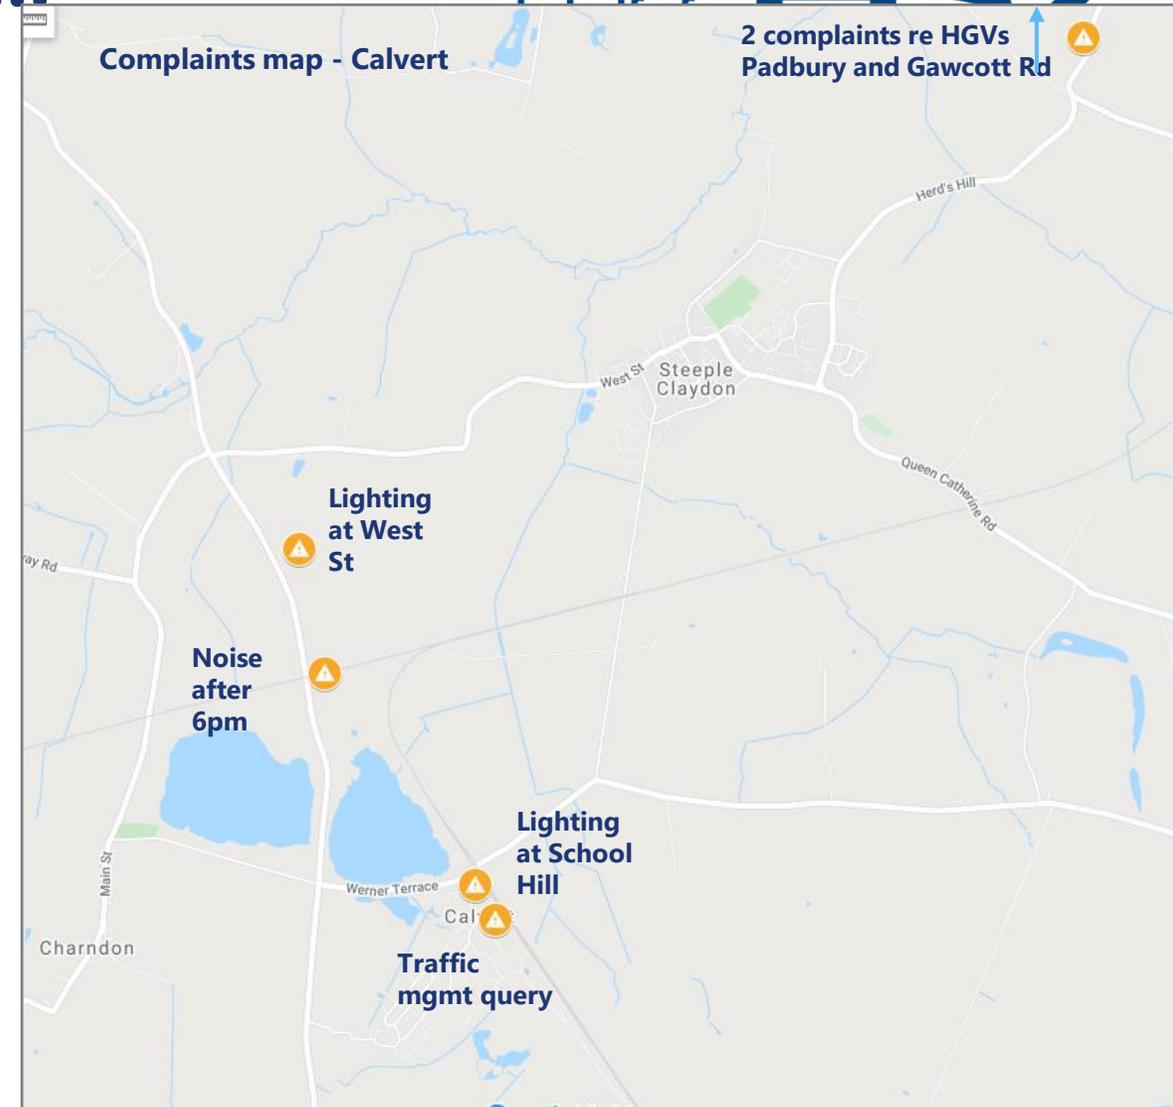

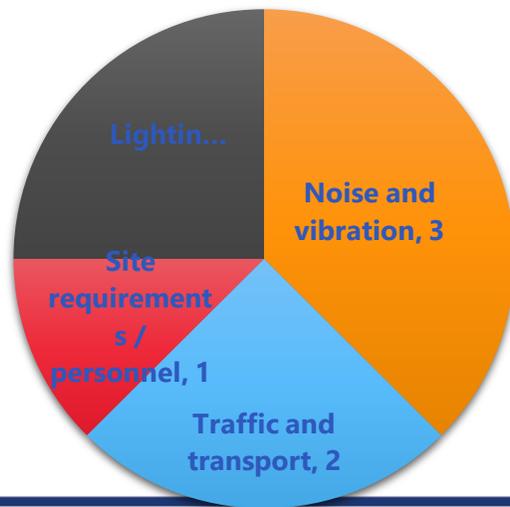

7 complaints

1 enquiry

1 of these did not related to EKFB works
(Kane HGVs through Padbury)

5 of these were closed by EKFB, 2 remain open.

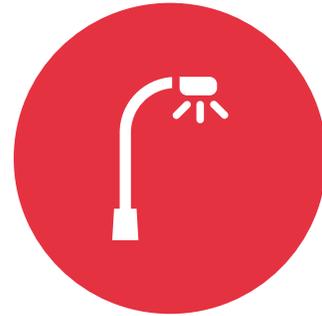

Complaints and enquiries received (by category):

What are we doing to resolve your issues?

Responding quickly – within 3 working days in February.

Complaints around lighting – we carry out **lighting reviews** and lights lowered or turned off where possible.

Publishing an **in-depth newsletter** next month to outline upcoming works, road closures and FAQs

Speaking directly with communities – **virtual drop-ins** being arranged for late Spring

“Thank you so much for your very illuminating presentation, it was apparent by the attention given, and the number of questions, that our members found this very interesting and maybe somewhat surprising”

Banbury Rotary Club

“Thank you so very much for this information. Very helpful and has put my mind at rest now that I know the interruption is minimal. I was very worried with the announcement and no details”

Helpdesk enquirer

“Can I just say that the CALM(!) meetings are working pretty well. Of course it’s not all plain sailing which is why we’re having them but please pass on my thanks”

Bucks Council

“I would just like to write to you both on behalf of all of us to thank you for time arranging our site visit to Finmere Bridge site yesterday. It was all well organised, and Wes was the perfect host, answering all our daft questions with a smile! May I wish the whole project good fortune moving forward”

Great Central Railway

“A resident of Thorpe Mandeville asked me to tell you that he was impressed by the clean state of the Sulgrave road past your compound”

Thorpe Mandeville PC

Lighting & Noise
